EU4Health
For a healthier and safer Union

EU4Health – the Programme

EU4Health is a clear message that public health is a priority for Europe and it is the instrument to pave the way to a European Health Union

- **RESPONSE TO COVID-19** – supporting the fight against cross-border health threats and boosting the preparedness and capability to respond effectively to future health crises, including through the European Health Emergency preparedness and Response Authority (HERA)
- **AMBITIOUS VISION** – will go beyond crisis response to support and complement national health policies for strengthening and modernising health systems, reducing inequalities and overcome shared challenges
- **THE LARGEST EVER EU INVESTMENT IN HEALTH** – over €5.3 bn (current prices) invested in health during the next 7 years (2021-27)

Welcome to the Best Practice Portal

The Best Practice Portal is designed to help to find reliable and practical information on implemented practices recognized as the best in the area of health promotion, disease prevention, and the management of non-communicable diseases. It also provides an overview of practices collected and transmitted in actions co-funded under the Health Programmes.

Practices can be submitted for assessment through this portal. While proposals for new practices are welcome at any time, we are currently calling for submissions in the area of [non-communicable diseases](#) (2020). Every practice, as long as evaluated as "best" against the criteria adopted by the Steering Group on Health Promotion, Disease Prevention and Management of Non-Communicable Diseases (Steering Group), will be published in the portal and might be brought to the attention of Member State representatives for further transfer and broader implementation.

[Submit your best practices on the prevention of non-communicable diseases!](#)

[A call for best practices is open through 28 February.](#)
