Under the current **Multi-annual Financial Framework of the European Union (MFF 2021 – 2027)**, actions that pertain to improving health and well-being in the EU and beyond are supported by multiple streams of funding, covering different dimensions of action, and working in synergy with each other.

Chief among them is **Horizon Europe (2021-2027)**, the EU current 9th research and innovation programme, as well as **EU4Health**, the Union's 4th programme for action specifically on health, the latter taking a public health- and implementation-oriented outlook.

Within Horizon Europe, health funding is provided on the one hand under the **Programme's Cluster 1**, Health (one of 6 thematic Clusters) and on the other hand under the **Mission Cancer** (one of 5 thematic Missions supported under Horizon Europe).

This presentation is part of the action "NFP4Health" which has received funding from the European Union's Health Programme (2014-2020) under grant agreement No 101035965.
